About Our Siddur

As an international online Sephardic Jewish community, it was important to create a siddur that would meet the needs of those who join us from all around the world and could be downloaded to a computer or tablet. Our Siddur follows Nusach Ari and Nusach Edot HaMizrach (Sephardic). We welcome you to use our siddur whether you are joining us for services or praying on your own.

Kabbalah4All Transliteration Guidelines

a as in father

ai or **ay** as in aisle

e as in red

ei as in eight

i as in pizza

o as in no

oy as in toy

u as in tune

ch as in Bach in German (strong sound from the throat)

g as in give

tz as in lots

' typically adds an "EH" sound after a consonant, this is known as a Shva Na or pronounced Shva as in the word "Sh'ma".

- a dash is simply used to aid in pronunciation, usually if two like vowels follow each other, as in the word "da-at."

In Hebrew, the accent generally falls on the last syllable, however it sometimes falls somewhere else in the word. In our transliteration, when the syllable falls somewhere else other than the last syllable, that stressed syllable will be underlined. Example: Melech.

Hebrew Rules

The following are some of the Hebrew rules you may notice in our siddur.

מֵלֶךְ

In Hebrew, the accent generally falls on the last syllable, however it sometimes falls somewhere else in the word. Whenever a syllable other than the last is accented, a "meteg" (the vertical line under the first letter) will appear.

כֹּל

The "masoret" above the letter Chaf indicates that this is a Kamatz Katan, which is pronounced as "o"; in this example the word is "kol."

יִשְׁמְחוּ

The "rafe" above a letter indicates it is a Shva Na. This example is pronounced yism'chu.

Note that the rafe does not appear above the first letter of a word that has a Shva as that is ALWAYS a Shva Na.
